"WAR ON PRICES" FOR THE LADIES' & CHILDREN
8801 SO. VERMONT

Twenty-seven elementary classrooms will be made available for use for the first time this year with the opening of the Meadow Park school. The Meadow Park school will have 12 classrooms and an administrative unit to serve the area south of Sepulveda, avoiding some triple sessions at the Seaside school.

Two new classroom wings will open at Walteria and Riviera. Each wing contains 4 classrooms and rest room facilities.

Four bungalows have been moved onto the Carr site and three bungalows were moved to El Nido to help relieve some of the ever increasing enrollment.

Under Construction
Two schools are now under construction but behind schedule due to the labor difficulties encountered in the building industry the last few months. The Crenshaw school, a pre-cast, tilt-up concrete project, is well along. The plant consists of 14 classrooms and an administrative unit and a multi-purpose room. This project is being totally financed by the Federal Government. The Hillside school is being framed at this time. It contains 12 classrooms, a utility room, and an administrative unit.

Two complete schools are on the drawing boards at this time. The Carl Steele school, which will help to house a portion of the large subdivision west of Hawthorne between Del Amo boulevard and 190th street, will be ready for State Division of Architects' approval in the near future. This is also a federally financed project and will contain 18 classrooms, a multi-purpose unit, and an administrative unit.

The Pacific school, which will serve the large Ellinwood development south of Pacific Coast highway as well as a portion of Hollywood Riviera, is also on the drawing boards. This school will contain 19 classrooms, a lunch patio, and an administrative unit.

Portable Classrooms
In addition to the above projects, the Board has authorized the preparation of plans for portable classrooms to be built at the following schools: Perry school, two double classroom units and a double kindergarten unit; North Torrance school, two double classrooms and a double kindergarten unit; Seaside school, three double classroom units, a double kindergarten unit, and a lavatory unit.

The Board of Education is also in the process of procuring additional school sites in newly developed areas as funds become available.

TILT-UP SCHOOL . . . The Howard Wood School at 235th st. and Arlington is one of the many pre-cast concrete tilt-up schools being built by the Torrance Unified School District.

The walls are cast and then just tilted into place. The schools have attracted nationwide attention.

Local School Buildings Gains National Attention

Torrance schools are nationally known for many unique features. Among the best known are the following:

1. The dining patio, which consists of an auditorium of about 2000 square feet and a pullman type kitchen which is built for around \$35,000 and is used as a multi-purpose unit for the elementary schools. This is Torrance's answer to the \$80,000 multi-purpose unit which was originally designed for the schools of Torrance.

2. Another unique feature of the district is the windowless cafeteria which appears in some areas of the district. One is now being built at Crenshaw school, and one already exists at the Fern Avenue school.

3. Another unique feature of the district is the fact that many of the buildings are built of pre-cast concrete, commonly known as the tilt-up method. The new North Torrance High School and 5 of the elementary schools are constructed with this method. The cost has been kept under \$11 per square foot in all cases.

"It is the objective of the Torrance Board of Education to build as many classrooms as

possible with the bond money and to stretch the money as far as possible for the children of the community," Mrs. Grace Wright, Board president, stated.

"It is also the objective of the Board of Education to build buildings that will have low maintenance costs.

"These two objectives do not interfere with the children having adequate space and buildings of sound construction, but they do eliminate some of the extras in the buildings that are not essential to the educational program."

Wang Joins Faculty At El Camino

Among the 12 newcomers joining the El Camino college faculty tomorrow, will be Martin Iver Wang, who will supervise audio-visual work at El Camino. Wang, a native Californian, taught at Torrance High School. He received his Master of Science degree at USC in the field of education.

Don Kellogg Graduates From Non-Com School

Pvt. Donald E. Kellogg, son of Mr. and Mrs. F. F. Kellogg, 1544 West 206th street, Torrance, recently was graduated from the 27th Regiment Non-Commissioned Officer Academy in Korea.

An ammunition specialist in the regiment's Company M, Kellogg received instruction in leadership of units, map reading and other military subjects.

The 21-year-old soldier entered the Army during January 1954 and arrived in Korea three months ago from Fort Ord, California.
